211 Marketing — Website Copy & SEO/AEO Brief

Nov 6, 2026 · @211marketing

Hand-off copy for the web developer: seven pages, final text, metadata and structured data. Voice: calm, warm and specific, per the 211 brand guide.

Sitemap & SEO map

Seven pages, each owning one search intent. Every title is 60 characters or fewer and every meta description is 145 or fewer, so neither gets cut off in Google.

Intro (answer-first, quotable by AI search)

> 211 Marketing is a doctor-founded healthcare marketing agency in Ahmedabad. We plan and run social media, Google Business Profile, local SEO and websites for hospitals, clinics, diagnostic centres and specialists, and every piece passes an 8-point review built around the NMC guidelines dated 6 October 2026.

Three reasons, three cards

Card title	Line
We speak fluent medicine.	Our founder is a doctor, so we know the difference between a procedure and a promise.
And fluent Instagram.	Reels, carousels and Google profiles that people actually stop for, and save.
Rules first, reach second.	Every post is checked for credentials, claims, patient privacy and AI use before it goes live.

What we do (links to Services)

Social media for healthcare · Google Business Profile & local SEO · Healthcare websites · Brand & content · NMC-aware communication audits

How we work (4 steps)

1. **Classify.** Doctor, clinic, hospital or diagnostics: the rules differ, so we start there.
2. **Check.** Credentials, claims and current content, reviewed against the NMC guidelines.
3. **Create.** Calm, premium content and pages your patients find useful.
4. **Care.** Monthly review, honest reporting, steady improvement.

Free check band (Ink Navy)

- Heading: Is your clinic's Instagram ready for the new NMC rules?
- Line: A free 15-point check of your Instagram, Google profile and website. One page, within 48 hours. No sales pressure.

- Button: Get my free check

Closing line above the footer: Less noise. More trust.

Healthcare, Services, About and Free Check pages

Healthcare marketing (`/healthcare-marketing/`)

- H1: Hospital and clinic marketing in Ahmedabad, done properly.
- Lead: Patients choose healthcare on trust. We build that trust with clear information, calm design and content that respects the NMC guidelines.
- **Who we work with** (four tiles): Hospitals and multi-speciality centres · Clinics and day-care centres · Diagnostics and labs · Individual specialists
- **What changes for you:** a Google profile that answers patients' questions · a feed that looks like the quality of your care · no testimonials, before/afters or "best doctor" claims that put you at risk · one partner for strategy, content, search and web
- CTA: Start with a free check.

Services (`/services/`)

H1: Healthcare marketing services. Each service gets an H2 and one short paragraph:

H2	Copy
Healthcare social media	Monthly content plans, reels and carousels for Instagram and Facebook, written for patients and reviewed against the NMC guidelines.
Google Business Profile & local SEO	Accurate listings, services, photos and Q&A, so people searching nearby find correct, factual information first.
Healthcare websites	Fast, mobile-first sites with service pages, a doctor directory and answer-first FAQs that search engines and AI assistants can quote.
Brand & content	Positioning, visual identity and medical copywriting that feel premium because they are restrained.
NMC-aware communication audit	A structured review of your website, social media and campaigns, with a prioritised list of what to fix.

H2	Copy
Institutional media	Paid campaigns for eligible hospitals and institutions, only where the law and NMC guidance allow.

Closing line: Not sure what you need? We'll tell you honestly, even if it's less.

About (`/about/`)

- H1: A marketing firm with a doctor's eye.
- Body: 211 Marketing was founded by Dr Mrugesh, MD Anaesthesiology, FPCI, who has been active professionally in Ahmedabad for nine years. Having worked inside healthcare, he saw the same problem again and again: good clinics marketed like shops, or not at all. 211 exists to fix that, with communication that is accurate, useful and quietly premium.
- **The name:** 2 is the sweep of creative thinking; 11 is the structure of disciplined execution. Together: Creativity + Structure = Growth.
- **What we believe:** Healthcare is not ordinary advertising. Visibility should never cost credibility. Less noise, more intent.
- **What we won't do:** guarantee patients, post testimonials or before/afters, buy reviews, or tie our fees to patient referrals.

Free check (`/free-nmc-check/`)

- H1: Your free NMC-aware check.
- Lead: Send us your Instagram, Google profile and website. Within 48 hours you'll get a one-page review: what's clear, what to review and what to fix.
- **What we check:** credentials and registration details · claims and superlatives · testimonials and patient images · offers and urgency · AI-made content · Google profile accuracy · website basics
- Form fields: Name · Organisation · I am a: Doctor / Clinic / Hospital / Diagnostics / Other · City · Instagram handle · Website · WhatsApp number · consent checkbox: "I agree to be contacted about my check."
- Button: Send for my free check
- Thank-you message: Thank you. We'll send your one-page check on WhatsApp or email within 48 hours.
- Small print: A marketing review, not legal advice.

NMC guide page (`/nmc-guidelines-2026/`)

This is the page most likely to rank and be quoted by AI assistants, so every section opens with a one-sentence direct answer.

- H1: NMC advertising guidelines 2026, explained in plain English
- Byline line: By 211 Marketing · Last reviewed: [date] · General information, not legal advice
- Answer box (first paragraph): On 6 October 2026, the National Medical Commission published guidelines on ethical advertising and public communication by hospitals, medical institutions and registered medical practitioners, effective immediately. They allow education and factual information, and prohibit patient solicitation, testimonials, before/after promotion and unverifiable superiority claims.

H2 (question)	Answer-first copy
Does social media count as advertising?	Yes. Posts, reels, websites, influencers, messaging apps and AI-assisted content are covered, whoever publishes them.
Can clinics post patient testimonials?	No, not for promotion, and patient consent does not make it acceptable.
Are before/after photos allowed?	Not for promotion. Scientific or educational use follows strict consent and anonymity conditions.
Can we say "best" or "No. 1"?	Only if it is objectively verifiable, with the source and method disclosed. Individual doctors may not advertise success rates.
What can hospitals say?	Factual, verifiable information: name, location, contacts, departments, facilities, equipment, services, emergency care, accreditation and charges.
What should a doctor's post include?	The doctor's name, qualifications, registration status and registration number.
Does using an agency shift the responsibility?	No. The doctor or hospital stays responsible for content they commission.
Can an agency charge per patient lead?	No. Fees cannot be linked to procuring or referring individual patients.
